## Our Brand Promise in Action

The ability to help others "do" has been the cornerstone of Dollar Bank since we opened our doors in 1855. It's a belief in empowerment, that every customer and community we serve has a path to better possibilities before them. And that it's our mission to help them get there.

Our commitment to helping our customers and communities "do" is what makes us different, too. It's the reason we listen so earnestly, work to truly understand your needs and consistently deliver the solutions that prioritize your wellbeing above all else.
