Instructions to Enable Third-Party Cookies on Browsers

1. Enable third-party cookies in Chrome

1.1. On your computer, open **Google Chrome**.

*1.2.* From the top right, select the three vertical dots and then **Settings** (Fig.1).

1.3. This will open a web page, **Settings**. On the left-hand navigation bar, click on **Privacy and security** (Fig. 2).

*1.4.* In the **Privacy and Security** menu select **Cookies and other site data** (Fig. 3).

*1.5.* On the **Cookies and other site data** page, select the radio button **Allow all cookies (**Fig. 4).

1.6. Close the settings tab and the updated settings will be saved automatically.

2. Enable third-party cookies in Firefox

2.1. On your computer, open **Firefox.**

2.2. Click the menu button ☰ and select **Settings.**

2.3. On the left side menu select the **Privacy & Security** panel **(**Fig. 5).

2.4. Under **Enhanced Tracking Protection**, select the **Custom** radio button **(**Fig. 6).

Browser Privacy

Enhanced Tracking Protection

Trackers follow you around online to collect information about your browsing habits and interests. Firefox blocks many of these trackers and other malicious scripts.

[Manage Exceptions...]

Learn more

○ **Standard**   ⌄
Balanced for protection and performance. Pages will load normally.

○ **Strict**   ⌄
Stronger protection, but may cause some sites or content to break.

● **Custom**
Choose which trackers and scripts to block.

☑ Cookies | Cross-site tracking cookies — includes social media ... ⌄ |

☑ Tracking content | Only in Private Windows ⌄ |

☑ Cryptominers

☑ Fingerprinters

⚠ **Heads up!**
This setting may cause some websites to not display content or work correctly. If a site seems broken, you may want to turn off tracking protection for that site to load all content.   Learn how

2.5.   Check **Cookies** and use the drop-down menu to select the types of cookies you wish to block.

Cross-site tracking cookies — includes social media cookies is the default setting. Leave this option on to allow third party cookies.

2.6.   Close the *about: preferences* page. Any changes you've made will automatically be saved.

3. Enable third-party pookies in IE

3.1.   On your computer, open IE.

3.2.   In Internet Explorer, on top right side menu bar, select **Tools** ⚙ **(**Fig. 7).

3.3.   Under Tools menu click **Internet Options**. In the Internet Options window navigate to **Privacy** tab and then click **Advanced** (Fig. 8).
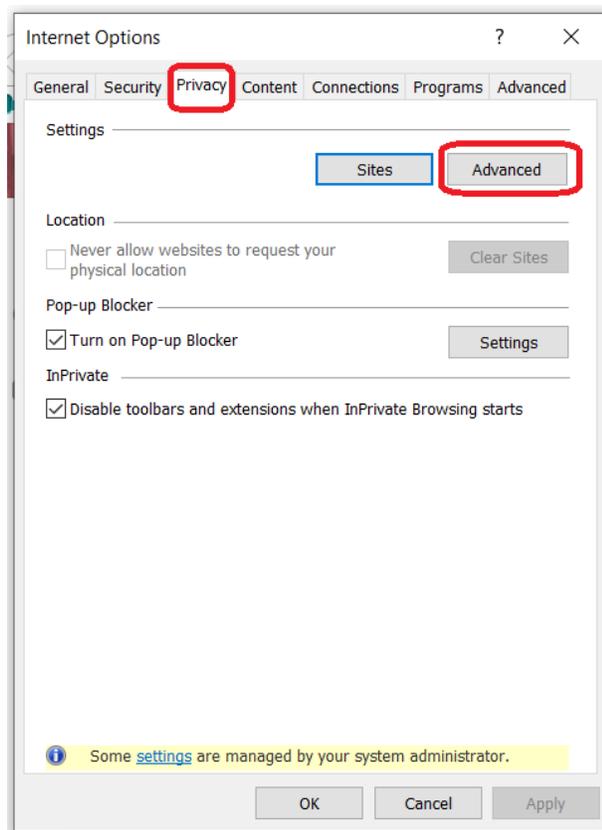

3.4.   In **Advanced Privacy Settings** select the **Accept** radio button for both **First-party Cookies** and **Third-party Cookies and** click **OK** (Fig. 9.)
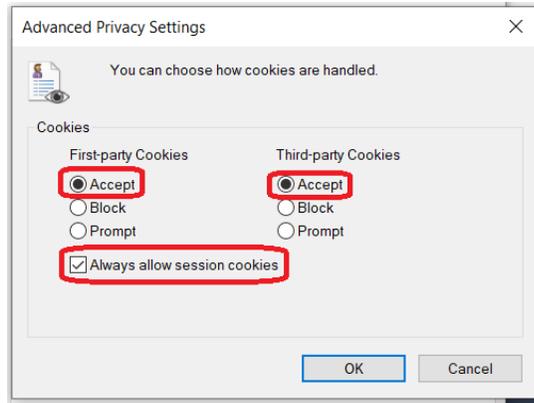

3.5. Click **OK** again in the **Internet Options** window to save the settings.

4. Enable third-party cookies in Edge

4.1. On your computer, open Edge.

4.2. From the top right corner, select the three horizontal dots ••• and then click **Settings.**

4.3. In the **Settings** window click **Cookies and site permissions** tab (Fig. 10.)

4.4. Under **Cookies and data stored** click **Manage and delete cookies and site data** option (Fig. 11.)

Cookies and data stored

Save cookies and data on your device in order to facilitate continuous browsing between sites and sessions

Manage and delete cookies and site data 〉

4.5. Under **Cookies and site data** make sure the **Block third-party cookies** toggle button is turned off.

4.6. Close the **Settings** tab and changes will be saved automatically.

5. Enable third-party cookies in Safari

5.1. On your Mac, go to **Safari > Preferences > Privacy**.

5.2. Under the **Privacy** tab make sure the **Block all cookies** check box is unchecked (Fig. 12.)
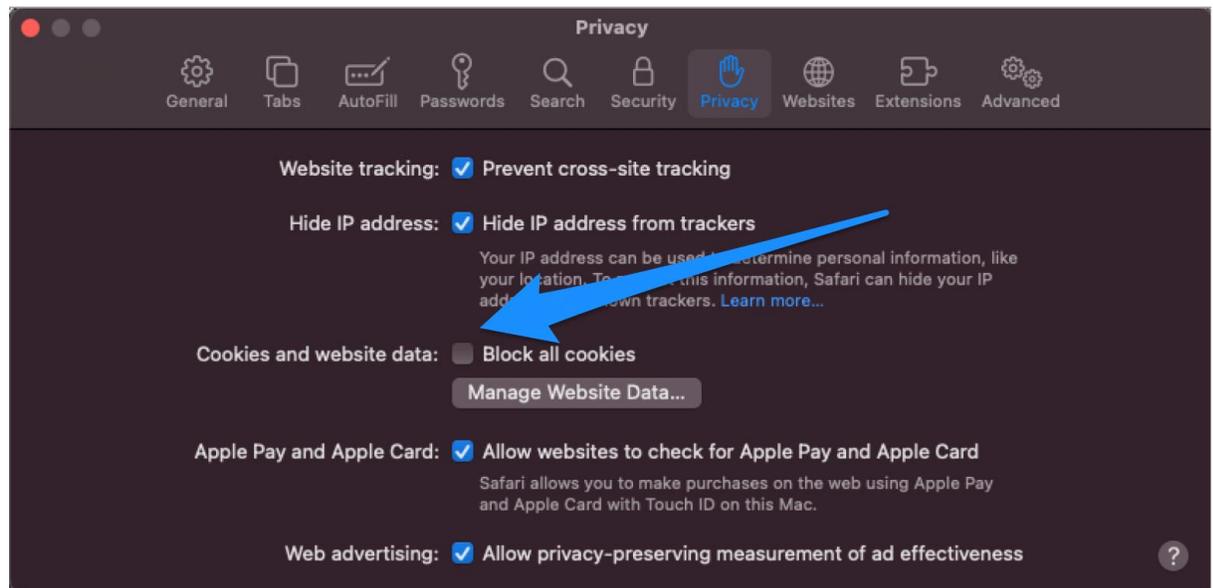

5.3. Close and refresh the browser to save the changes.
